<u>PLANTING ON PARKS AND MEDIANS POLICY</u> - A motion by Lois G. Finkelman, seconded by Ruthmary White to adopt the following policy was carried:

- 1. The Park and Recreation Department will have the ultimate responsibility for approving the planning of these beautification projects and coordinating the review and approval of concerned City departments in accordance with City of Dallas specifications and policies.
- 2. Depending on the scope and complexity of the beautification project, the Park and Recreation Department may request that a development plan (drawn to scale) be submitted at the expense of the sponsoring party.
- 3. Tree planting requests will be regulated as follows:

A. The sponsoring party will provide the following at their expense:

- 1) All development costs of planting to include tools, labor, plant material, soil amendments, and other necessary materials, in accordance with City of Dallas specifications.
- 2) The design, installation, repair, and maintenance of any irrigation system, as well as the installation and maintenance for other types of watering systems, meters, services, valves or hoses requested by the organization.
- 3) All irrigation maintenance and water bills will be the responsibility of the sponsoring party, unless otherwise approved.
- 4) All maintenance for the project will be for a period of two (2) years. The sponsoring party will be responsible for all plant replacement, watering and fertilization during that period.
- 4. Tree Size: It is recommended that a minimum tree size of 2 inch caliper be used, measured 6" from the top of the tree ball. The tree should also have to meet minimum height requirements for traffic clearance, depending upon the location in which they are to be planted.

(Continued on the following page)

Park and Recreation Board, August 22, 1991 Volume 21, Page 011

- 5. Planting: In order to reduce labor intensive maintenance practices, reduce basal damage and increase water efficiency, trees should be grouped in a planting bed which includes linear plantings. In the case of medians, the bed would go from curb to curb. A typical bed could be any distance in length and should be as wide as the median or in some cases could include the entire median. Once the trees are planted, the bed will be heavily mulched to reduce weeds and erosion.
- 6. The Park and Recreation Department will provide a representative to inspect the plant material for approval prior to planting. The decisions of the representative are final and acceptance or rejection of the project will be based on the recommendation of the appointed representative.
- 7. When continuous replacement of plants occurs due to repetitive traffic damage, vandalism, etc., the Park and Recreation Department shall retain the option to relocate, substitute, or discontinue the planting.
- 8. It is strongly recommended that trees be planted between November and March to ensure the greatest opportunity for survival.
- 9. The City shall be the sole owner of all plant material installed on public property.
- 10. Whenever possible, drought tolerant plant material should be used when an irrigation system is not available.
- 11. Plaques will not normally accompany plantings. However, large donations of major consequence may allow for special recognition markers at the expense of the sponsoring party with the approval of the Park and Recreation Board in accordance with the Park and Recreation Beautification Policy and the City of Dallas Sign Ordinance.

In addition, the State Department of Highways and Public Transportation is requesting that the Board formally approve the transfer of approximately 3,959 square feet from Freedman's Cemetery to the State for the construction of North Central Expressway. <u>RECONVENE</u> - The Board meeting was reconvened at 1:45 p.m. with the following attendance: Rene V. Martinez, Ruthmary White, Vivian Williamson- Johnson, Lois G. Finkelman, Renee R. Riggs, Kevin B. Wiggins. Absent: James P. Graham.

With Mr. Martinez presiding, the Board considered the following agenda items:

<u>SPEAKERS</u> - Representatives of Dallas Area Rapid Transit presented maps, drawings and information on the following requests for easements:

<u>GLENCOE PARK</u> - In conjunction with the proposed North Central LRT Line, DART has requested an approximate 23,844 sq. ft. (0.547 acres) subsurface easement through Glencoe Park between Mariel Street and Ellsworth Street. The request is for the construction of a tunnel 35 feet in height under the park at a depth of approximately 60 feet to the top of the tunnel for mass transportation. DART, who will design and construct the tunnel, has determined that there exists no feasible alternative to the use of this subsurface land, and all reasonable planning has been included to minimize harm to the site as a whole. During the construction and subsequent operation of this mass transit line, a tunnel will be bored underground, resulting in no disturbance to the surface use of the park, its vegetation, or facilities. A public hearing is required by Texas statutes because the land was purchased and is used for park and recreation purposes.

A motion by Vivian Johnson was seconded by Renee R. Riggs to request the Dallas City Council to authorize a public hearing and council action on December 11, 1991 on the proposed use of a portion of Glencoe Park for a DART underground use easement with no cost consideration to the City. Motion carried.

<u>TRINITY RIVER PARK</u> - In conjunction with the proposed South Oak Cliff Light Rail Transit Line, DART has requested an approximate 11,239 sq. ft. (0.258 acres) easement within the Trinity River Park adjacent to the existing Santa Fe Railroad Bridge at the South Levee. The request is necessary for the construction of a bridge to cross Trinity River Park and supplement the existing Santa Fe right-of-way where the new DART bridge will be constructed. DART, which will design and construct the bridge, has determined that there exists no feasible alternative to the use of this park land, and all reasonable planning has been included to minimize harm to the site as a whole. During the subsequent operation of this mass transit line, there will be no resulting disturbance to the surface use of the park. The need for this additional 11,239 sq. ft. is required to allow for the proper angle of curve in the rail alignment within the existing Santa Fe easement. A public hearing is required by Texas statutes because the land was purchased and is used for park and recreation purposes.

A motion by Vivian Johnson was seconded by Renee R. Riggs to request the Dallas City Council to authorize a public hearing and Council Action on December 11, 1991 on the proposed use of a portion of Trinity River Park for a Dallas Area Rapid Transit (DART) use easement with no cost to the City. Motion carried.

By Dallas City Charter, the Park and Recreation Board is empowered to review and officially accept donated property for park and recreation purposes. This policy is identified with respect to the process by which the Dallas Park and Recreation Board will evaluate all proposals for land donation.

SCOPE OF THE POLICY

This policy is intended by the Dallas Park and Recreation Board to be the framework for review and acceptance or denial of all land properties offered in donation or transfer of title to the City of Dallas Park and Recreation Department. This includes, but is not limited to, those properties offered through developers and the "subdivision process" of dedication, individual offers of donation, floodway management areas or easements, transfers of title from other City departments, surplus City land sales or offers of use, estates and trusts, corporations and business organizations, philanthropic organizations, tax delinquent offers, and tax exempt or community organizations. POLICY

It shall be the policy of the Dallas Park and Recreation Board to accept or deny potential land donations or transfers of title based upon the guidelines set forth herein. It is the intent of this policy to insure the widest possible range for consideration of donations across the City of Dallas where such needs are consistent with the adopted program of park and recreation services, open space preservation and protection of natural resources.

Procedure:

- 1. All potential donations and transfers of title shall be initially presented to the Park and Recreation Department staff for review. This review shall be coordinated for the department through the Planning and Research division, with the involvement of other necessary Departmental divisions.

 - d. Has it been identified through any other public plan for preservation such as the <u>Dallas Natural Open Space Plan</u> or <u>The Dallas County Natural</u> <u>Open Space Plan</u>.

- f. Does it provide for the preservation of endangered natural open space, flora and fauna?
- g. Does it expand upon existing park sites as may be desirable, or areas previously designated for park site acquisition?
- h. Does it involve any displacement to Dallas citizens or relocation costs?
- i. Does it have any potential liability problems or environmental hazards?
- j. Does it have strong neighborhood or community support?
- k. Is it of a manageable size and configuration so as to meet park and recreation needs, and not place an undue burden upon the department?
- 3. Careful consideration shall be given in each case to the budgetary cost impact both in the short range and long range.
- 4. Each potential donation shall be evaluated based upon meeting the needs for programming, preservation, or other designated use now and in the future. In a timely manner the Board will be kept informed of all potential land donations that are under evaluation by staff.
- 5. Staff shall determine the property's acceptability or nonacceptability, based upon this policy, and notify the donor accordingly.
- 6. All tracts of land deemed acceptable through donation or transfer shall be forwarded on to the Board for review and formal acceptance or denial.
- 7. Any properties determined to not be acceptable by staff for donation may be appealed directly to the Board by the donor for review and reconsideration should the donor not agree with the Staff's recommendation, or should the staff determine that the donation may be of a sensitive nature.
- 8. The Board reserves the right to reject or approve any land donation that, in its sole opinion, is not in the best interest of the City or Park and Recreation Department, and/or inconsistent with the policy herein identified.

<u>POLICY FOR EASEMENTS AND JOINT USES ON PARK PROPERTY</u> - A motion by Renee R. Riggs, seconded by Ruthmary White to approve the following revised Park Board policy was carried:

SCOPE OF THE POLICY

This policy is intended by the Dallas Park and Recreation Department to serve as the framework for approval and/or regulation of easements or similar joint agreements for public utilities within a dedicated or City of Dallas administered park site. It shall be unlawful for any person or organization, whether public or private, to install a public utility on City of Dallas park property or to otherwise use for such purposes any portion of any City of Dallas park property without complying fully with the procedures set forth in this policy.

State legislation (Sections 26.001 through 26.004 of the Texas Parks and Wildlife Code) establishes the requirements for approving other (nonpark) uses of park land. Essentially, the governing body may not approve any program or project that requires the use or taking of any public land designated or used as a park or recreation area until certain facts have been determined. In compliance with these statutes and in accordance with the authority vested in it by the Charter of the City of Dallas, the Park and Recreation Board shall utilize the following policy and procedure.

POLICY

It shall be the policy of the Dallas Park and Recreation Board to ensure the protection of park land against all other uses except those bonafide utility uses having been determined as required by public necessity and which include all reasonable measures to minimize harm to the use of the land as a park. No land under the administration of the Dallas Park and Recreation Board shall be used or transferred for use by a public utility without the prior written permission of the Director of the Park and Recreation Department. The approval of such uses must be consistent with the established procedural guidelines of this policy.

PROCEDURE:

- 1. The agency or organization requiring the use of park property for nonpark purposes must submit to the Park and Recreation Department the following documentation in support of such nonpark project or program:
 - a. a complete description of the project or program, including but not limited to specific location, method and time of construction/ installation, duration of use, mitigation measures to minimize harm to the land for park uses;
 - b. an evaluation of the probable consequences of all reasonable alternatives to the use of park land for the project, including but not limited to, no action, alternative technical procedures and other locations; and
 - c. a specific statement by the requesting authority that there exists no feasible alternative to the proposal and that appropriate mitigation measures have been included.

Documentation should be commensurate with the scope and expected impact of the proposed project or program, and, where practical, should be submitted in an 8 $1/2 \times 11$ " format appropriate for distribution to Board and Council. Although not required, it is advised that project sponsors confer with Park and Recreation Department staff prior to submittal of the request.

2. Requests for utility joint use agreements or easements will be processed in one of the following methods, depending upon the proposed action's level of impact on park property and its continued use as a park as well as the sponsor's degree of public authority, as recommended by the Dallas City Attorney's Office.

<u>LEVEL 1</u> requests include those uses which are proposed by another City of Dallas department, require no loss or sharing of ownership by the City, no permanent change of park use, no disruption of turf, trees or use areas, no permanent surface structure related to the proposed use, no additional operation or maintenance funding by and/or no reimbursement to the Park and Recreation Department, and for which the period of construction does not exceed 120 days. All activities by other departments necessary to serve or improve the park will also be defined at this level. These requests will be reviewed by staff and permitted by letter of agreement when signed by the Director of the Park and Recreation Department to which the use is granted, with a copy of the agreement sent to the City Attorney. These requests need not be reviewed or approved by the Board or Council. The Board may be copied for information desired.

<u>LEVEL 2</u> requests include uses by other City of Dallas departments which require no loss or sharing of ownership by the City, but which are not required by nor serve any use of the park, cause some permanent disruption of park turf, trees or use areas, and/or require a period of construction in excess of 120 days, and/or add to the annual operation and maintenance expenses of the Park and Recreation Department or require reimbursement for the loss of rights, facilities or annual expenses. These requests will be permitted only upon the approval of the Park and Recreation Department and Recreation Department and the director of the department to which the use is granted, with copies of the agreement sent to the City Attorney and City Manager to take action on the reimbursement or exchange of funds. These agreements will not require approval of the Council.

Park and Recreation Board, December 12, 1991 Volume 21, Page 80

LEVEL 3 requests include all uses by private utility companies or public agencies other than the City of Dallas, which require loss or sharing of ownership by the Park and Recreation Department, or which cause permanent change in park use, and/or result in permanent surface construction unrelated to park use. These requests will be permitted only with the approval of the Board and by resolution of the City Council following proper public notification and public hearing consistent with Chapter 26 of the Texas Parks and Wildlife Code.

- 3. In approving requests, the staff, Director and Board as required must establish that the proposal:
 - is requested by an agency or organization having the power of eminent a. domain:
 - b. has no feasible or prudent alternative; and
 - c. includes adequate mitigation to minimize harm to the land as a park.

Such additional conditions for approval may be established as determined necessary, and may include but not be limited to the following general conditions:

- no park tree or turf shall be disrupted which is not replaced or restored to acceptable condition following construction;
- no alteration of the property for soil borings, surveying or other planning shall be allowed without prior written approval; b.
- no machinery or construction access or storage unrelated to the project C shall be allowed;
- no chemicals shall be used without specific written approval; d.
- designated representative of the Park and Recreation Department shall be e notified at least 3 days prior to start of construction;
- f. construction signs, should such be required, shall give the contact of the sponsor; and/or
- other conditions of construction and/or mitigation measures as may be q. deemed desirable to maximize park utilization and operation.
- 4. The Board reserves the right to reject any proposal for a nonpark utility use on park property, which, in its sole opinion, is not in the best interest of the Park and Recreation Department and/or for which appropriate mitigation measures for the loss of park use cannot be agreed upon and/or which are not fully consistent with the policy identified herein.

The Board reserves the right to revoke permission previously granted when it determines that the project includes actions not included within approved conditions of granting of permission or which, regardless of earlier agreement, prove detrimental to the use of the land as a park and/or fail to comply with the permit conditions.

<u>MANAGERIAL ADJUSTMENTS AND ASSIGNMENTS</u> - The following letter was received by the Boardmembers:

"It has been my pleasure and privilege to support the Park and Recreation Board and direct our department for the last four and one half years. I am proud that our record has been one of significant accomplishments as we have pursued our mission, "To enrich the lives of the people of Dallas". Even amidst the stress and toils brought about by many years of severe fiscal limitations, we have brought our vital services closer to the people in ways unprecedented!

"I am deeply encouraged by our new Mayor's promise of sound, committed leadership. He engenders a challenging vision that neobureaucrats such as I yearn to be a part of; I believe that our new City Council will join him in a partnership that will make Dallas a greater city.

"Notwithstanding, I now feel led to a new challenge and a different kind of reward - business ownership. After nearly eight years amidst Dallas' entrepreneurial atmosphere, I have been deeply "bitten by the bug". I am extremely excited about the potential that awaits me to become a part of the other side of the Dallas success equation.

"It is my intent to resign and depart City Hall on January 1, 1992, but remain available to assist the Board for a short period thereafter while I utilize much of my accumulated leave time to be with my family before launching my new business in earnest.

"Please accept my appreciation for your support of my leadership and our department and the dedication each of you has given our efforts.

May God's blessings go with you!"

<u>1992-93 OPERATING BUDGET</u> - The following memorandum from the Director was provided to the Boardmembers along with the detailed explanation of the proposed 1992-93 Operating Budget for the Park Department:

"The budget proposal for FY 1992-93 is designed to maintain the current year's service level as baseline, while addressing areas of concern such as utilities and adding a limited number of new initiatives reflecting our needs as projected into the next fiscal year. I am pleased to present the enclosed proposals for your indepth review and consideration.

"This proposal has been prepared based upon our knowledge that the City will continue to face the adverse impact of comparatively flat franchise fee revenues, flat sales tax revenues and a continued declining property tax base.

"At the same time the City's final budget will have to consider the impact of the Walker Consent Decree and other large legal settlements, the issues of code enforcement and public safety and the need to maintain an AAA bond rating; compliance with federal and state mandates, significant infrastructure improvements and the funding of on-going maintenance of such improvements. Summarily, these factors suggest that we will again be looking at a deficit to be funded through increased taxation, service reductions, cost containment/ efficiency initiatives or a combination of all of these.

"This document has been prepared based upon staff's perception of reasonable departmental needs for the upcoming fiscal year. We have included the following:

- 1. Funding for the annualized cost of Oak Cliff Founders Park (funded only for a portion of the current year).
 - 2. Funding for expanded costs associated with new facilities which are scheduled for completion at some point in the next fiscal year or as otherwise "mandated".
 - 3. Funding for expanded costs for our budget needed to address basic and substantial concerns expressed by the board over the year, as well as those identified by staff.

"It is important to point out that the staff fully realizes that it is highly unlikely that our package will be accepted and funded as proposed. It is important that the Board establish a "benchmark" of what is needed to at least adequately serve our citizens regardless of the final allocation.

(Continued on the following page)

"At this time the budget has not considered an increase in existing user fee rates and/or new user fees. This issue will need to be addressed at a subsequent meeting.

"The Park and Recreation Department's FY 1992-93 target budget is \$39,200,017. However, staff feels that \$43,124,321 more closely reflects our needed resources as follows:

- 1. \$3,418 for annualization of partially funded programs and/or facilities.
- 2. \$3,920,886 for expanded costs.
- 3. Our proposed budget totals 1115.8 worker years, which are 43.1 worker years over our target budget of 1072.7 worker years. The increased worker years are allocated as follows:
 - a) .2 worker years for annualization of partially funded programs and/or facilities.
 - b) 42.9 worker years for expanded costs.

"The variance between the target number and our proposal is \$3,924,304.

"This document realistically reflects the minimum acceptable level of resources needed to responsibly serve our citizens. The staff is confident in knowing that you continue to be deeply concerned, involved and supportive. We appreciate the extensive and quality time that you give to your Board service, especially in preparation of this all important document that will serve as our policy and resource guide for the upcoming fiscal year."

A motion by Renee R. Riggs, seconded by Evelyne Long to approve the 1992-93 Operating Budget as proposed by staff was carried.

<u>DALLAS WORLD AQUARIUM</u> - A motion by Sandra Crenshaw, seconded by Renee R. Riggs, for the Board President to send the following letter to Daryl Richardson, owner of the proposed "Dallas World Aquarium" to be located in the West End Historic District was carried:

The Dallas Park and Recreation Board would like to indicate its enthusiasm for the concept of the proposed Dallas World Aquarium. At the same time, I'd like to share some of the concerns expressed by the Board at our April 16th meeting.

The consensus of the Board is that the name "The Dallas World Aquarium" would create confusion with the City's facility, the Dallas Aquarium at Fair Park. We suggest that the name of your facility be modified to reflect its primary function as that of a food/catering establishment.

In addition, we ask that you consider the possibility of "adopting" the Dallas Aquarium at Fair Park. Through joint marketing efforts and the distribution of promotional materials, we can increase the success of both facilities.

Thank you for your willingness to listen to the Dallas Park Board's concerns. I am confident we can resolve these matters to our mutual benefit.

The Rochester Levee is a Public Works project providing for the engineering, right-of-way acquisition, and construction of a levee to relieve flooding of 300 homes in the area. The public art project is funded via 3/4% of the 1989 bond program allocation, minus specific excluded amounts such as right-of-way acquisition.

Working with the representatives of the Rochester Park community, the Public Art Committee, the Park Department and the Public Works Department, the Office of Cultural Affairs administered the artist selection process. A selection panel composed of a representative from the community and two arts professionals reviewed the qualifications of 18 local artists and recommended J. D. Evans, an artist who grew up in the Rhoads Terrace Housing Project, as the best candidate for the project.

The structure of the wall will be designed by a registered engineer and will be reviewed by both the Park Department and the Public Works Department. The materials and paints to be used will be weather resistant and the artwork will be treated with a protective covering. The anticipated completion date is late spring of 1993.

SECTION 4: That this resolution shall take effect immediately from and after its passage in accordance with the provisions of the Charter of the City of Dallas, and it is accordingly so resolved.

<u>DALLAS ZOO AND AQUARIUM</u> - A motion by Evelyne Long, seconded by Barbara, Steele that the following policy be adopted was carried:

SCOPE OF THE POLICY

This policy is intended by the Park and Recreation Board as a framework to address requests for free passes to the Dallas Zoo and Aquarium.

POLICY

It shall be the policy of the Park and Recreation Board to issue no free passes to the Zoo or Aquarium except in certain cases as described in the following:

PROCEDURE:

1. Requests for promotional passes, sponsorships and fundraisers, etc.

Under the Zoo/Aquarium marketing plan, staff participates with corporate sponsors, the media, and other organizations to increase visitations. On these occasions a radio station may give free tickets, visitors may redeem a consumer product (UPC) symbol for free admission, or a coupon may be available through a special program such as "Readathon".

In each case the decision to do the promotion is based on receiving equal or greater than, in-kind contributions such as media space/time, direct reimbursement for coupons, or a major donation.

If the Zoo or Aquarium receives a net positive tangible benefit from waiving fees or giving passes, it should proceed with the Zoo Director's approval. The Director will focus/limit the passes to weekdays and/or non-peak hours, during the non-peak months when possible.

The Zoo Director could provide to the Park Board a monthly written report, highlighting any exceptions and the rationale behind the decision. In each case the value of the in-kind gift will be indicated.

2. Requests from the economically disadvantaged

If there is no way to quantify the economic gain for the Zoo and Aquarium and if the event/giveaway is for civic outreach or good will, requests for passes should be made through a central agency such as ARTREACH.

ARTREACH, is an existing non-profit agency partially funded by the Dallas Office of Cultural Affairs which serves 475 social service agencies working with low income, handicapped and elderly citizens. The agency screens all requests, distributes tickets, keeps records of distribution and sends audit reports to participating institutions.

The Dallas Zoological Society will pursue a corporate donor program which would fund some passes each year for ARTREACH. These passes would be sold to the donor at 20% off the group rate.

(Continued on the following page.)

Park and Recreation Board, September 3, 1992 Volume 21, Page 160

3. Other charitable requests

Passes (usually four) may be provided to non-profit organizations for use in silent auctions, carnivals, etc. In each case the good will and exposure would be greater than the loss of revenue.

- The Zoo and Aquarium will not issue rain checks for admissions or parking. Monorail passes (rain checks) will be issued under certain specific 4. conditions.
- 5. Free admission will be provided for volunteers who are encouraged to become Dallas Zoological Society members. DZS members receive family passes under the terms of their membership.

<u>GOOD FAITH POLICY AND PROCEDURES</u> - A motion by Betty Svoboda, seconded by Lloyd White, to adopt the following recommendations of the Park and Recreation Board's Minority Affairs Committee and send those recommendations to the M/WBE Committee of the City Council was carried:

OVERVIEW

On December 7, 1992, the Minority Affairs Committee of the Park Board was requested to review the Draft City of Dallas Good Faith Effort Policy and Procedure and submit written comments. In order to properly evaluate the Good Faith proposal, the Minority Affairs Committee invited minority contractors and subcontractors to review the proposal and testify at a public hearing.

On January 7, 1993, the Minority Affairs Committee held two meetings: a morning meeting with selected minority contractors and subcontractors and a second meeting with all Park and Recreation contractors and subcontractors. Based upon the testimony and a review of the draft policy, the Minority Affairs Committee makes the following comments and recommendations:

COMMENTS

The Minority Affairs Committee finds that a major problem is the minority contractors' complete lack of faith in the Good Faith Policy. This lack of faith arises, in part, from the lack of effective enforcement of the policy and the perceived inability of the City to mandate compliance with minority participation goals.

Recommendation Numbers 1 and 2

- 1. State legislation to make it a criminal offense to knowingly misrepresent the level of minority participation in procurement of contracts. Penalties should include criminal sanctions as well as civil restitution.
- 2. City ordinance to make it a criminal offense to knowingly misrepresent the level of minority participation in procurement of contracts. Penalties should include criminal sanctions as well as civil restitution.

The recommendations 1 and 2 focus on the need for specific legal sanctions to make it a criminal offense for a contractor to knowingly misrepresent the level of minority participation to secure a City contract. Specifically, the City should lobby the state legislature to pass criminal legislation that would make it a criminal offense to engage in this type of fraudulent conduct. Further, the City should immediately pass a City ordinance to make it a criminal offense to engage in this type of fraudulent conduct.

The rationale for these recommendations stems from the fact that the City relies, in part, upon the contractor's representations in making the contract award. Contractors should not be permitted to mislead the City about their commitment to minority participation and benefit from the fraud by retaining the contract with the City.

In the Committee's opinion, the presence of State and City criminal sanctions would deter future fraudulent conduct. Finally, the passage of criminal sanctions would make a strong policy statement regarding the City's commitment and resolve to full minority participation in the process.

(Continued on the following page.)

Park and Recreation Board, January 14, 1993 Volume 21, Page 199

Recommendation Number 3

3. A statement should be contained in all pre- and post-award documentation that it is a violation of State or City law to misrepresent the level of minority participation in order to procure a city contract. The documentation should also contain the statement that the contractor has an obligation to report any substantial change in the level of minority participation.

The Committee recognizes that there are existing laws on the books that arguably could be applied to criminally prosecute fraudulent misrepresentations on a government document. Accordingly, the Committee's recommendation No. 3 is that the existing compliance documentation be amended to include the following statement:

The above list of minority participation that is submitted to the City of Dallas for the purpose of determining the level of minority participation in the contract is a true, complete and correct statement of minority participation as of the date shown. I understand that misrepresenting information on this document is a criminal offense punishable by fines and/or imprisonment.

This statement or a similar statement in the compliance documentation would send a clear message to the contracting community of the City's commitment to minority participation. Inclusion of this statement or a similar statement in the compliance documentation would also elevate the significance and care taken by the contracting community in completing the documentation.

The Committee's recommendation Nos. 4, 5, 6, and 7 are specific, immediate measures which the City could take to strengthen the Good Faith policy. As stated above, the minority contractors testifying before the Minority Affairs Committee had the shared perception that the City lacked a real commitment to increasing the level of minority participation in the contracting process. This perception is based on the observation that not a single minority contractor was aware of a contractor who was denied a contract by the City based upon the contractor's failure to be a "responsible" or "responsive" bidder.

Recommendation Number 4

4. A task force should examine contractors who have done business with the City of Dallas. Contractors who have failed to meet their minority goals should be examined to determine if they are non-responsible bidders and therefore, should not be permitted to do business with the City.

The Committee's recommendation No. 4, therefore, states that a task force examine contractors who have done business with the City. The task force should identify non-responsible or responsive contractors who have failed to meet their minority goals and <u>if warranted</u>, deny those contractors the privilege of doing business with the City of Dallas.

Recommendation Number 5

5. For all contracts in excess of \$1 million, an independent third-party ombudsman/consultant should be responsible for monitoring minority compliance.

Further, the Committee in recommendation No. 5 urges that all City contracts in excess of \$1,000,000 should include an independent consultant/ombudsman who is responsible for monitoring minority participation. The Committee recognizes that in light of the staffing limitations of OMBO, that it cannot adequately monitor minority participation on all City contracts. This recommendation provides a built-in mechanism which ensures adequate staffing and monitoring of the minority participation component of significant construction projects.

Recommendation Number 6

6. OMBO should conduct random on-site inspections of projects and be given sufficient resources to conduct the inspections to ensure compliance.

(Continued on the following page.)

Park and Recreation Board, January 14, 1993 Volume 21, Page 200

There is uniformity of opinion among the testifying minority contractors that the most effective means to determine minority participation and identify "front companies" on a project is on-site inspections. Accordingly, the Committee's recommendation No. 6 is that OMBO conduct random on-site inspections to monitor minority participation. The Committee also recommends that OMBO be given sufficient resources to perform the on-site monitoring function.

Recommendation Number 7

7. Pending final determination of OMBO's recomendation to City Council and the City Manager's office. OMBO should be given authority in the construction contracts to suspend a post-award contract if the contractor is determined to have misrepresented the level of minority of participation in order to secure a City contract.

A critical weakness in the City's Good Faith policy is the complete lack of authority on the part of OMBO to suspend a post-award contract for a knowing misrepresentation of minority participation or knowingly using "front companies" on projects. The lack of enforcement power by OMBO raises a serious issue regarding the credibility of the agency to monitor and supervise minority participation. Committee recommendation No. 7 states that OMBO should be given the authority to suspend post-award construction contracts which were procured by fraud. OMBO's authority to suspend a contract for fraud pending a final determination by the City Council or a Court of Law could be included as a provision of the contract. The Committee recognizes that the City's Good Faith policy is not a mandatory set-aside which would permit suspension of a contract for the failure to reach the City's minority participation goals. At the same time, the Committee makes a distinction between a good faith failure to reach the goals and a willful circumvention of the intent and scope of the policy for economic gain.

Recommendation Number 8

8. Once OMBO has made a recommendation to the North Central Certification Agency to review certification, OMBO should serve notice to the M/WBE contractor that is subject to challenge. The M/WBE contractor should have the right to respond to the allegations prior to the de-certification decision.

The Committee heard complaints of a dual standard in the treatment of majority contractors and minority contractors. Mr. Cecil Stark testified that his company's minority certification was unilaterally suspended without notice by the North Central Certification Agency. At the same time, Dal-Mac, the alleged mastermind of the scheme to circumvent the minority participation goals, has had no action taken against it by the City. The Committee has also heard concerns that the certification process could be subject to abuse. The Committee has no opinion on the Agency's de-certification of Mr. Stark's companies. The Committee recommendation No. 8, however, does call for OMBO to notify M/WBE contractors that a challenge which has been referred to the Agency for review has been made to their certification. The Committee believes that if a challenge to the M/WBE certification is made, that contractor should have the right to respond to the allegations prior to the de-certification decision.

The Committee also heard comments or concerns that the present practice of replacing minority contractors and subcontractors on Schedule C encourages non-compliance. Comments were made that a Contractor should be required to contract with the minority contractors and subcontractors on Schedule C, except in certain exceptional circumstances. Although the Committee does not make a specific recommendation on this issue, the Committee does believe that the comments raised require further study and consideration.

Finally, the Committee heard comments and concerns about providing a remedy for wrongful de-certification of minority contractors. Specifically, the City or Agency should consider a contractual damage provision providing for restitution in the event of a wrongful de-certification of a minority contractor.

<u>J. J. CRAFT PARK</u> - A motion by Alan Walne. seconded by Linda Koop that the following resolution be adopted was carried: (93-)

WHEREAS, the City of Dallas in cooperation with Dallas County Human Services provides health, nutrition, recreation and social service activities at the Juanita J. Craft Senior Center for the Wahoo/Frazier community senior citizens; and

WHEREAS, the City of Dallas Park and Recreation Department has developed an agreement for the use of the building which outlines the responsibilities of Dallas County and the City of Dallas as it relates to the use of City facilities and services provided; and

BE IT RESOLVED BY THE PARK AND RECREATION BOARD AND THE CITY COUNCIL OF THE CITY OF DALLAS:

SECTION 1. That a three-year agreement with two one-year options to renew upon approval of the Park and Recreation Board, be approved with Dallas County Human Services to provide health, nutrition, recreation and social service activities at the Juanita J. Craft Senior Center.

(Continued on the following page.)

SECTION 2. That the President of the Park and Recreation Board and the City Manager are authorized to execute the agreement after approval as to form by the City Attorney.

Section 3. That this resolution shall take effect immediately from and after its passage in accordance with the provisions of the Charterof the City of Dallas, and it is accordingly so resolved.

1993-94 BUDGET - A motion by Don T. O'Bannon, seconded by Barbara Steele to authorize staff to forward the following memo with attachments concerning FY 1993-94 Budget Reduction Options to the Mayor and City Council was carried:

"The attached list reflects the Park and Recreation Board's budget reduction options. These options are not recommendations and are given to you as options only for consideration as a last resort. The Park and Recreation Department, along with other city departments, has experienced significant cuts over the past seven years. Program areas such as maintenance have experienced the most serious reductions and the appearance of our parks reflect this fact.

The Park and Recreation Board is concerned with the viability of the park infrastructure and does not believe it would be responsible stewardship to propose further reductions in maintenance.

The Park and Recreation Board recognizes the financial difficulties that the city has faced and is facing and the demands upon you to present a balanced budget. However, it is important to realize that the appearance of our public property is a major factor in attracting and retaining businesses and residents.

The areas of service delivery that we have protected during previous budget years have been recreation programming. Recreation programming is essential for our urban youth and our direction has been to minimize the impact upon this age However, we are at a point that if budget reductions are required. group. recreation program reductions are one of the few options left.

The Park and Recreation Board recognizes that all city employees are a valuable resource to the success of our city operation. We also understand that it is very difficult to reduce the department's budget by 5% without affecting personnel. During your May 24th budget workshop, the Park Board indicated concern for staff, i.e. no staff reductions unless absolutely necessary. It is still the position of the Park Board that you give serious consideration to the negative impact regarding personnel reductions.

Park and Recreation generated \$8,755,353 in revenues last fiscal year which is up from \$5,464,475 in 1986-87. Last year's revenue represents 24.3% of the total It is impractical to expect significant reductions in expenditures budget. without reduction in revenues which is counter-productive.

If we can provide additional information, please advise."

PROPOSED FY 1993-94 BUDGET REDUCTION OPTIONS LEVEL I

| PROGRAM | \$ AMOUNT | WORKER YEARS | REVENUES | |
|---------------------------------------|-----------|-----------------|----------|--|
| Restructure of Summer Aquatic Program | 74.517 | 2.8 | (9.048) | |

Would result in the closure of 4 community pools based on low attendance, revenues and geographic location of various pools. Proposal retains \$4,320 for renting two large buses during the summer to transport children to the nearest swimming pool and \$7,912 to fund four part-time summer recreation leaders who would be responsible for transporting children and implementing programs. Summer program savings is net of the enhancement costs for affected parks.

*Community Impact: Would reduce attendance but still make alternative sites available for paid swim, free swim, family swim and swimming lessons. Transportation would be free to the nearest pool. This would result in the elimination of 24 part-time seasonal employees who are hired during the months of June and July. 4 part-time summer recreation leaders will provide summer camp program at affected sites.

(Continued on the following page.)

average of 60 hours for community recreation centers. Flexible schedule changes could minimize programming losses at peak periods. Temporary part-time personnel will be reduced.

Convert Regional & Recreation Center Vans to Rental

35.899 0

0

0

Would result in 12 regional and recreation center vans returned to General Services resulting in rental and fuel savings. Proposal adds in the cost of \$6,720 for leasing four vans and/or DISD buses on a daily basis for a minimum of 60 days with emphasis on the summer season to transport children as needed. Vans donated by community organizations will continue to be operated by those centers

*Community Impact: Would restrict senior citizen activities such as field trips, summer programming, track meets and other events. Would require participants to provide their own transportation during winter and fall seasons.

Summer Recreation Program for the Dealey Service Area

88,656 1.6(50,000)

Would reduce funding in salaries, supplies and services until a recreation center site location is developed. Proposal adds in the cost of \$14,000 to provide summer programs at Aikin, Kramer and Dealey schools to reduce the loss of summer youth programs.

*Community Impact: Could result in the reduction of recreation programs such as after school programs, contract fee classes, senior programs, leagues and special events. Two full time positions and one part time position would be eliminated. No employees would be RIF'ed. (1 Community Recreation Leader 10, 1 Community Recreation Program Manager 14, and 1 part-time Recreation Leader 5) A summer program will be provided at three sites within the Dealey service area. (A request for reinstating personnel and other operational funding will be forth-coming when the new recreation center is constructed.

Reduce Fair Park Fountains by 8 months 30.065 0

Would reduce the fountain operation at Grand Avenue, MLK Blvd., Music Hall, Smith, Hall of State (2), and Old Mill Restaurant by 8 months (December-July). *Community Impact: Would eliminate fountain operation at the above designated time period except for events for which the promoter or sponsor is willing to absorb the operational costs. This could impact the park's marketability at a time when the park is hosting and promoting World Cup activities. Revenues could be affected through loss of traditional events and new events may go elsewhere.

City Hall Fountain and Reunion Fountain 77,520 1.0

Transfer one Fountain Mechanic T-8 with tools/equipment and all parts/ maintenance operation responsibilities to the Convention Center or receive reimbursement from the Convention Center.

*Community Impact: No service level impact. Fountain Mechanic T8 will be reassigned to the Convention Center or if reimbursed, the position would remain in the department.

Bachman Therapeutic Participant Fees 0 0 31.000

Would implement a fee structure for aquatics and activities classes at Bachman Therapeutic Recreation (BTR) Center. Historically, programs offered at BTR have been provided at no cost to the public. Fees would be based on three fourteen week programs (fall, spring, and summer seasons).

*Community Impact: Should generate new fees for existing structured classes and provide new program offerings thereby generating additional revenues for the General Fund.

Would reduce pool operations from 10 weeks to 9 weeks as an alternative to closing pools. 16 of the 22 pools would be open the first week. All 22 pools would be open from the second through the ninth week. 6 pools will be open during the tenth week during our lowest attendance period. (If this alternative is selected, then closing designated pools could impact the service area community. Swimmers would have to travel further distances outside their community during this period.) *Community Impact: Should be minimal since the program will better reflect school calendar year, our ability to staff pools, as well as historical paid attendance trends.

Senior Service - Marcus Annex 33.341 1.0 0

from 10 Weeks to 9 Weeks

Would result in the re-programming of senior services at Marcus Annex. Staff will seek to develop cooperative programming with Dallas County Nutrition Services, Office of Senior Affairs and Area Agency on Aging. *Community Impact: Could restrict Department directed activities at Marcus Annex such as field trips, set-up, program assistance, etc.

Recreation Staff Restructuring 36,450 0 0

Would restructure Community Recreation Program Specialists Grade 8 positions (Continued on the following page.)

which currently provide direct program services to youth, seniors and young adults. Programs include arts and crafts, sports and specialized services such as computer instructions. This option proposes to convert each vacant position to two part-time grade 5 positions working a maximum of 20 hours per week. If this pilot program proves successful, this action could continue over the next several years through attrition. This option cannot be considered if recreation center hours are reduced to 48 or 40 hours since it would duplicate cost reductions identified in those options.

Recreation centers without a gymnasium, usually referred to as neighborhood centers, will begin to be affected by the first year. District Managers will rotate staff in their districts based on program and service delivery. All centers will open based on programs and community needs. District Managers and Center Managers may schedule part-time staff to open in the mornings for contract fee classes or reservations.

*Community Impact: Could impact the quality of services provided to participants from a lower level of professional staff.

BUDGET REDUCTION OPTIONS LEVEL II

PROGRAM

WORKER \$ AMOUNT YEARS REVENUES

8.0

Restructure of Summer Aquatic Pools 64.082 2.8 (15,418)

Would result in the closure of 4 community pools based on low attendance, revenues and geographic location of various pools. Proposal retains \$4,320 for renting two large buses during the summer to transport children to the nearest swimming pool and \$7,912 to fund four part-time summer recreation leaders who would be responsible for transporting children and implementing programs. This would result in the elimination of 24 part-time seasonal employees who are hired during the months of June and July.' Four part-time summer recreation leaders will provide a summer camp program at affected sites.

Reduce Community Recreation Center Hours from 60 Hours to 48 Hours 281.362

0

Would downgrade 28 full-time 5 positions to 28 part-time 5's at all community centers and 12 additional part-time 5's would be funded at \$76,320 at some recreation centers with a high volume of revenues or reservations. The two centers with boxing specialists would not be impacted. Hours would be distributed to centers on a systematic basis to address community needs. If this option is accepted, the proposed restructuring of recreation staff in Level 1 needs to be removed from consideration, since it would duplicate staff reductions identified in this option.

*Community Impact: Could impact recreation centers participation because of the potential reduction of recreation programs. Revenue producing programs may be impacted including sales of trash bags and grass bag tags. Twelve part-time 5's would be funded with this adjustment to reduce potential revenue loss at selected centers with high volume of outreach programs, contract fee classes, reser-vations, trash bags and grass clipping tag sales.

Reduce Neighborhood Recreation Center Hours from 50 to 40 Hours 229,878 8.5 (2.800)

Would result in the reduction from 50 to 40 hours per week at 11 small neighborhood recreation centers. Proposal would eliminate 11 full time Community Recreation Specialist 8 positions, thereby eliminating entry level professional staffing. In addition, 11 part-time 5 positions would be funded for \$69,960. This adjustment would allow for the operation of facilities with two staff members at each location. If this option is accepted, the proposed restructuring of recreation staff in Level 1 needs to be removed from consideration, since it would duplicate staff reductions identified in this option.

(Continued on the following page.)

*Community Impact: Would result in reduction of attendance, class participation and implementation of center programming by eliminating majority of all staff-taught programs. This could require rental of facilities to organizations who have ability to pay. Creative program implementation would be significantly reduced since no professional support staff would be available for Community Program Supervisor 10.

BUDGET REDUCTION OPTIONS LEVEL II

| Dallas Arboretum and Botanical Society | 5,790 | 0 | 0 |

Reduce DABS by additional 1.6% in direct contributions. *Community Impact: Could affect programs that are currently offered free of charge to the public and could impact the future growth at the Arboretum.

Dallas Civic Garden Center 1.500 0

Would reduce Garden Center by addition 1.5% in direct contributions. *Community Impact: Could result in further reduction in maintenance of the gardens with possible loss of rentals and fewer visitors annually.

BUDGET REDUCTION OPTIONS LEVEL III

Restructure of Summer Aquatic Program 98,005 3.8 (11,101)

Would result in the closure of 4 community pools based on low attendance, revenues and geographic location of various pools. Proposal retains \$4,320 for renting two large buses during the summer to transport children to the nearest swimming pool and \$7,912 to fund 4 part-time summer recreation leaders who would be responsible for transporting children and implementing programs. Trans-This would result in the portation would be free to the nearest pool. elimination of 24 part-time seasonal employees who are hired during the months of June and July. Four part-time summer recreation leaders will provide a summer camp program at affected sites. It would also result in the reduction of one pool mechanic.

Discontinue Therapeutic Services on Outreach Basis 38.150 1.0 0

Would eliminate one Therapeutic Specialist 12 position who is responsible for coordinating with various agencies, participants, familes, and staff the regional development of therapeutic recreation programs. Would reduce coordination and implementation of Americans with Disabilities Act (ADA) at the regional level.

*Community Impact: Could reduce therapeutic programming. This would require mainstreaming and coordination of special populations and events such as Quad Rugby, Special Olympics, Wheelchair Tennis and Basketball tournaments into 39 recreation centers and at the Therapeutic Recreation Center. Would result in RIF of 1 Therapeutic Recreation Specialist 12.

Reduce Community Recreation Center Hours From 48 to 40 Hours

107.057 6.5 (67.420)

Would result in the reduction of center hours from 48 to 40 at all community centers. Remaining hours would be distributed on a systematic basis according to community needs. Proposal would eliminate 27 full-time Community Recreation Specialist 8 positions and fund 24 part time 5 positions to address high volume revenue or reservations. This option would modify the previous proposal for reduction to a 48-hour operation, e.g., 27 full-time Community Recreation Specialist 8's would be eliminated rather than downgrading the 8's to full-time Recreation Leader 5 positions. If this option is accepted, the proposed restructuring of recreation staff in Level 1 needs to be removed from consideration _ since it would duplicate staff reductions identified in consideration, since it would duplicate staff reductions identified in this option

(Continued on the following page.)

*Community Impact: Would result in the reduction in participants by impacting self-taught classes which would include senior and adult programming as well as afterschool programming. League play and special event coordination would also be impacted. This could require rental and leasing of facilities to organizations who have the ability to pay. Creative program implementation would be reduced and no entry level professional support staff for Community Program Supervisors would be available. This would impact approximately \$67,420 in revenue for contract fee instructors and building reservations. It would result in 24 RIF'd employees and loss of 3 vacant funded positions.

Would close 11 small neighborhood centers and eliminate the Community Recreation Supervisor 10 positions as well as part-time 5 positions. It would also result in savings in supplies, materials and services budgets.

*Community Impact: Would result in closure of 11 centers impacting attendance, class participation and eliminating variety of services affecting seniors, youth, adult and after-school programs. It would affect program delivery in cultural arts, arts and crafts, physical fitness, sport leagues and special event coordination. It would result in the RIF of 11 Community Recreation Supervisor 10s. Additional savings should be included for utilities which are managed by General Services. If this option is accepted, the proposed restructuring of recreation staff in Level 1 needs to be removed from consideration, since it would duplicate staff reductions identified in this option.

 $\underline{1993-94\ BUDGET}$ (1985 Bond Funds Reprogram) - Assistant Director, Steven M. Park presented recommendations for the reprogramming of certain 1985 Bond Funds as follows:

The 1985 Bond Program included funding in the amount of \$500,000 for a feasibility study for a new "World Class" Aquarium at Fair Park. It has been determined that the cost of the study should not exceed \$350,000. The City is currently constructing an addition to the existing aquarium in Fair Park and is seeking additional funding in the amount of \$150,000 for design and installation of a centerpiece tank and other improvements.

Sherry Tupper moved approval of reprogramming the \$500,000 to address both projects. The motion was seconded by Renee R. Riggs with the following vote:

Aye: Lois G. Finkelman, Guillermo Galindo, Steve Hargrove, Evelyne' Long, Don T. O'Bannon, Renee R. Riggs, Rufus Shaw, Jr., Barbara Steele, Betty Svoboda, Sherry C. Tupper, Alan Walne and Lloyd White - 12 No: Linda Koop - 1

Motion carried.

The 1985 Bond Program included funding of \$198,000 for a golf course maintenance facility at Stevens Park. The existing facility has been updated with a new roof, electrical system and painting and a covered equipment storage area has been built. Due to excessive erosion of Coombs Creek through the golf course, it is recommended that funds be designated for erosion control throughout the creek corridor.

A motion by Sherry Tupper, seconded by Lloyd White to reprogram \$198,000 of 1985 bond funds for erosion control at Stevens Park Golf Course was carried.

The 1985 Bond Program included funding to construct a 50 meter swimming pool at Kiest Park in the amount of \$1,100,000. Community meetings confirmed a lack of support for the construction of a pool.

A motion by Lloyd White, seconded by Sherry Tupper to reprogram \$1,100,000 for recreation center expansion and improvements, construction of a new athletic complex and parking and paving improvements, in that order, was carried.

The 1985 Bond Program provided for landscaping and irrigation improvements at various park sites throughout the City. A total of \$513,000 was designated for approximately 20 sites. In addition, \$90,000 was designated for land-caping and irrigation at Elgin B. Robertson Park at Lake Ray Hubbard, which is no longer a DPARD site. Due to a loss in operating and maintenance dollars, the staff recommended these funds be reprogrammed to be divided equally beween the northeast, northwest, southeast and southwest quadrants of the City.

It was the consensus of the Board members to not decide on the reprogramming of the landscaping/irrigation projects at this time.

<u>POLICY FOR NAMING OF PARK PROPERTY</u> - A motion by Alan Walne, seconded by Linda Koop to approve the following revised policy for naming of park property was carried:

SCOPE OF POLICY

The Park and Recreation Board has the authority to name new parks, buildings or other facilities, or when appropriate, to change the names of existing parks, buildings or facilities including officially named parks on application of a waiver. It is the policy of the Park Board not to rename officially named parks. Officially named parks and facilities are defined as those which have been named by the Park and Recreation Board and/or City Council.

CRITERIA

- I. Park property may be named after streets, geographical locations, historical figures, events, concepts, or local, State or National leaders. Park property may also be named for individuals or groups where major donations of land, funds or other exceptional contributions toward the development, maintenance and/or operation of a park or facility have been made by the nominated individual or group.
- II. In the case of parks where only geographic, conceptual or other generic names exist or have been proposed, and when such names are not of special historical or geographic significance to the neighborhood, nominations may be made for local or community leaders;
 - A. who are deceased or 50 years of age or older,
 - B. who have made exceptional contributions to the Dallas park system and/or the community.
- III. In the case of neighborhood, community or regional parks, nominations may be made for an individual who is a known State or National leader;
 - A. who is deceased, and
 - B. where a consensus of the neighborhood makes the request.
 - IV. Naming of a room or area within a facility will follow the same general criteria for the naming of parks, buildings and facilities. Consideration will also include an individual or an individual group that has made an exceptional contribution to that specific facility or community.
 - V. Nominations will be accepted and considered only when received from recognized community based organizations, (an organization which has been in existence a minimum of one year) e.g., advisory councils, neighborhood associations, youth serving agencies, churches, etc.

(Continued on the following page.)

Park and Recreation Board, September 2, 1993 Volume 21, Page 269

- VI. In the case of neighborhood parks, the sponsoring group shall commit to provide funds at a level to cover all costs incurred by the Park Department to implement the name change, i.e., fabrication and installation of a new park sign or additional enhancements to the facility as identified by the Park Board.
- VII. General criteria for recognizing individuals or groups may also include:
 - A. acceptance of donations by the Park and Recreation Department for the planting of a tree(s) or other appropriate landscaping,
 - B. purchases of equipment for facilities.
 - C. other provisions as may be requested by those persons wishing to honor or memorialize individuals or groups.
 - D. contributions may be in the form of dollars, materials, or civic projects where volunteer labor is supplied towards the completion of identified improvements.

PROCEDURE

- I. A community based nomination shall be submitted in writing to the Administration and Finance Committee of the Park and Recreation Board. Staff will review the request and provide information to the Committee and/or a recommendation to consider for a sixty-day waiting period.
- II. Input will be solicited by staff from all property owners within 500' of the subject site. In addition, all known civic organizations, homeowners associations, recreation center advisory councils, and other similar groups within the park or facility's 2 mile service radius will be notified accordingly.
- III. If the nomination is accepted by the Administration and Finance Committee based upon the above criteria, a sixty-day waiting period will generally be required before Board action will be taken. This waiting period will allow the opportunity for staff to solicit community input as to the appropriateness of the name being nominated.
- IV. The Park and Recreation Board will review the request during a regularly scheduled (official) Board meeting and by a majority vote, approve or deny the request.

PROCEDURE FOR RENAMING OFFICIALLY NAMED PARK PROPERTY

- I. To request the renaming of an officially named park, the application for a policy waiver must be completed and returned to Director, Park and Recreation Department, 1500 Marilla, Room 6FN, Dallas, Texas 75201. The request must be received by the Park and Recreation Department a minimum of 14 days prior to placing on the Board's agenda. The requesting organization must be from the park's community and must get input from recognized community based groups, such as recreation advisory councils, before the request for waiver is accepted by the staff for Park Board consideration.
- II. The request will be provided to the appropriate Assistant Director who will prepare the agenda item for the Park Board's consideration. The agenda information packet will consist of a copy of the waiver form, a synopsis of how the park was officially named (e.g., historical data such as minutes documenting the official naming, deed restrictions, historical designations, local community input, petitions, etc.
- III. The Park and Recreation Board will review the request during a regularly scheduled (official) Board meeting and by a majority vote, approve or deny the application for waiver.
- IV. If the application for waiver is denied, it will not again be considered by the Board until after one year.

(Continued on the following page.)

Park and Recreation Board, September 2, 1993 Volume 21, Page 270

- V. If the application for waiver is approved, a 90-day waiting/notification period will be initiated. Following the 90-day period, the Administration/ Finance Committee will review the information obtained by staff along with staff's recommendation. Following the Committee review, a recommendation will be provided to the full Board.
- VI. A 2/3 majority vote of the Board is required to rename property which has been officially named.

FAIR PARK RESERVATION AND SCHEDULING POLICY - A motion by Barbara Steele, seconded by Linda Koop to approve the following policy was carried:

Statement of Purpose

Fair Park is a multi-purpose 277 acre National Historic Landmark owned and operated by the City of Dallas. The primary objective of the sports, entertainment and cultural complex is to promote and facilitate events and activities that generate economic benefits to the City of Dallas and enhance the quality of the life of its citizenry.

Tentative Hold

A tentative hold on rental facilities may be placed on the calendar for thirty days. If a written request for a contract is not received during the thirty day tentative hold period, the tentative hold will be removed from the schedule. The applicant may extend the hold one time for an additional thirty days by making a deposit of 10% of the base rental rate for the facility. If a contract is not executed, the 10% deposit will be forfeited to the City of Dallas.

Firm Commitment

Facilities and dates may be held as "firm" upon the receipt of a written request by the applicant for a contract. The request for a contract will initiate the contract preparation and execution process (page 2). No conflicting scheduling will be made during the next thirty days to permit preparation and execution of a contract. If a contract is not executed during the prescribed time, the hold may be removed from the schedule. The contract execution process may be administratively extended by the Executive General Manager as needed.

Confirmed

Facilities and dates are considered to have a confirmed contractual commitment only upon the execution of a Fair Park rental Contract by the lessee and Fair Park Administration, specifying all details of the commitment and a deposit of 50% of the base rental rate for the facility. If the rental is cancelled by the lessee after a contract is executed, the deposit will be forfeited to the City of Dallas. To ensure an orderly and thorough process, a contract must be confirmed at least 30 days prior to move in, except at the discretion of the Executive General Manager.

Scheduling Priorities

Generally, first priority for scheduling facilities and dates in Fair Park is available to clients reserving inside, arena and/or stadium rental space.

Facility and scheduling commitments for first priority events and activities may be made as far in advance as necessary or appropriate and may supersede requests for second priority events and activities unless a contract has been previously executed by Fair Park Administration and the user for such second priority event. Second priority for scheduling facilities and dates in Fair park is available to clients reserving only outdoor rental spaces.

(Continued on the following page.)

Park and Recreation Board, September 9, 1993 Volume 21, Page 273

Facility and date scheduling commitments for second priority events and activities are generally made not more than one year in advance and are subject to change to accommodate first priority events unless a contract has been executed by Fair Park Administration and the user for such second priority event. Within the first and second priority scheduling categories, Fair Park Administration will give preference to events with a proven record of success and significant positive impact at Fair Park.

Contract Execution

When an agreement is reached in regard to dates, terms and settlement for an event, a contract is drawn between the City of Dallas and the client by Fair Park staff. After the contract is prepared, the following process is initiated to fully execute the document:

- Two copies of the contract are delivered to the City Attorney's Office to be initialed certifying that the legal document is approved as to form.
- Both copies are sent to the client for signature.
- Both copies are returned to Fair Park Administration with a deposit of one-half the base rental rate for the event.
- Both copies are sent to the Park Board Secretary for signatures of the Park Board President attested by the Board Secretary, the Assistant City Manager and Assistant City Attorney.
- After the documents are fully executed, one copy is returned to the client and the other is retained in the Fair Park files.

Event Settlement

Before move-in or set-up of the event, the balance of the rent must be paid. Additional charges incurred during the event will be billed within five working days after the conclusion of the event.

General Policies

- 1. Daily use is considered to be any 14-hours, unless otherwise stated, beginning no earlier than 8:00 a.m. and ending no later than 12:00 Midnight the same day. Additional charges will be incurred for events exceeding the contracted rental period and between 12:01 a.m. and 8:00 a.m., as deemed necessary by Fair Park Administration.
- 2. The Executive General Manager may negotiate special rates, apply existing rates to the various areas of the facility or proceed to handle contractual matters and establish charges for rentals and services not specifically outlined when it is determined such action is in the best interests of the City of Dallas. Further, rentals may be declined when it is determined that it is not in the best financial interests of the City.
- 3. Charges may be made for set-up as well as special electrical and utility services with the schedule of miscellaneous rental items or based on special circumstances as determined by Fair Park Administration.
- 4. Televising, broadcasting or recording is permitted from Fair Park. Prior approval must be obtained from the Executive General Manager and an additional charge may be made for such privileges.
- 5. No refund of rental fee deposit will be made to a lessee who has entered into a lease agreement with Fair Park.
- 6. The Fair Park rental schedule provides basic information in the lease and use thereof; however, an on-site visit should be made with Fair Park Administration to discuss additional policies and procedures applicable to the event.

(Continued on the following page.)

- 275
- 7. A properly signed Fair Park rental contract and the minimum deposit must be received by Fair Park Administration prior to the sale of admission tickets.
- 8. Advertising or publicity for any particular event to be held at Fair Park must have the prior "consent for release" by Fair Park Administration.

It is the responsibility of Fair Park Administration to operate the complex in a sound business manner in an effort to maximize both economic benefit and financial stability of Fair Park. Fair Park Administration reserves the right to promote, solicit, develop and make reservations for any activity deemed appropriate to the objectives of Fair Park, and to qualify all activities requesting utilization of the facilities. Subject to the priorities set forth herein, the Executive General Manager may exercise his discretion as to issuance, modification, or termination of scheduling commitments.

"It's almost like I've gone full circle here. It's very fitting that the announcement that I am about to make is made here. But, the announcement is made after much soul searching and with great difficulty because I will say that I have had no greater pleasure since returning to Dallas five years ago than having the opportunity to work with the people that I've worked with on the Park and Recreation Board. It has been an introduction to politics, it's been an opportunity to serve, it's been an opportunity to work with some of the finest people this city has to offer. I commend all of you for the commitment and the effort and caring and time that I know each of you as unsung heroes give to the service of this city. I have chosen to run for State Representative and the rules require that I resign from my position here. There is never a good time to step down because there is so much work to be done and it is with deep regret that some things will be left unfinished. I hope that it is not a permanent parting but merely a change in the role that I will play with this Board, and that you will continue to count on me as a supporter of the Park Department and a supporter of our youth who really are the beneficiaries of all of the work that I want to thank the Board as this will be my last meeting. I have asked the permission of the Chair to continue to work on the Rules Committee as a non voting, citizen member of that Committee."

<u>PARK AND RECREATION BOARD MINORITY AFFAIRS COMMITTEE</u> - The President recognized Board member Dwaine Caraway who reminded the Board that as relates to the Minority Affairs Committee, Don O'Bannon has served as Chairman. Mr. Caraway informed the Board members that Carol Brandon had expressed an interest in sitting in that position and suggested to the President that the most important thing now was the decision of who would chair the Minority Affairs Committee.

The Board President told the Board members that she would speak with Carol Brandon regarding the chairmanship of the Minority Affairs Committee and would make an appointment within the next couple of days in order not to lose any continuity.

<u>FAIR PARK UNIFIED FUNDING PLAN</u> - The Unified Funding Plan is a five-year plan which has been developed to provide support funding for essential preservation, enhanced neighborhoods, traffic and parking and a year-round park with the following mission statement:

The Unified Funding Plan is a cooperative effort by groups with a major stake in Fair Park. It is an effort by these groups to plan for the capital needs of the Park.

The Unified Funding Plan recognizes that Fair Park is an historic public place which provides entertainment, education, and cultural experiences.

The Unified Funding Plan incorporates the needs of the public buildings, the nonprofit institutions, and the community surrounding Fair Park into one document. The Plan recognizes the interdependence of Fair Park and its neighbors.

The Unified Funding Plan recognizes that the basic maintenance needs of the Park are so great that no single entity can accomplish the stabilization of the buildings. the restoration of the art, the enhancements to the neighborhood, increased parking, and also provide for the institutions' capital growth.

The Plan's strategy is to find discreet projects that will appeal to specific funding sources. It seeks sources that can fund in a meaningful way without causing major changes in current operations.

The Unified Funding Plan describes how each funding source and each project fit together to create a Fair Park that realizes its potential, both as a tourist destination and as a place for the citizens of Dallas to be entertained, to learn to be inspired.

A motion by Steve Hargrove, seconded by Betty Svoboda to adopt the Unified Funding Plan for Fair Park, was carried.

We are especially appreciative of the concern the City Council has registered regarding the future impact of operational and maintenance costs of new or expanded projects.

In addition, the Park Board is very supportive of the City Council's discussions regarding match funding as a critical factor in securing voter approval. The Board agreed unanimously, in session March 2, 1995, to encourage the Council to require a private match prior to the release of public funds for a number of facilities in the bond program. The projects identified by the Board are the Dallas Zoo, Fair Park, Dallas Arboretum, Lee Park and Arlington Hall, Hispanic Community Center, Old City Park and the Dallas Nature Center.

Thank you for the time and dedication you provide to our city."

 $\underline{1995-96\ BUDGET}$ - A motion by Victor Smith, seconded by Eddie Hill to send the following letter to the City Manager, was carried:

The Park and Recreation Board has received the request to submit budget reduction proposals FY 1995-96. After nine years and nearly \$10 million in budget reductions, the Board believes that we cannot recommend any further reductions without an adverse impact on service delivery to the citizens of Dallas. As any long time resident can attest, there has been a decline in the condition of our parks and the program service level over this time period. We cannot afford further decline. We also believe that the quality and appearance of the City's public land is a significant factor in the attraction and retention of businesses and residents to Dallas.

The recreation needs of the youth of our community are a significant part of our mission to the citizens of Dallas. Recreation services are the number one contributing factor to creating strong and supportive families, which in turn build stronger communities. Dysfunctional families produce youth who face unfair challenges. These challenges require more demand for costly, alternative support services. Preventative recreation services are critical to the well-being of our youth at a fraction of the cost of intervention and incarceration.

A small investment in recreation will yield huge economic returns to the city of Dallas and makes good business sense.

Attached for your information are the history of Park and Recreation reductions as well as revenue increases. The attachments A and B show that we have reduced expenditures by \$9,695,584 while increasing revenues by \$3,103,149. Increases we have received in our budget have been added to fund new and expanded programs associated with capital improvements, the Gang Program and the Fair Park operations. Therefore, reductions have been at the expense of park maintenance and program service delivery.

The Board has instructed staff to identify additional revenues that are feasible. Attachment C proposes an increase of \$100,000 for the general fund from paid parking during evening hours at Fair Park.

In addition, we are forwarding our concerns regarding our continuing security needs at recreation centers and Fair Park, and replacement of maintenance equipment needs (Attachment D). Some equipment is 25 years old and the average age of our major grounds maintenance equipment is ten years old. Newer equipment would assist in providing a better quality park system by decreased equipment downtime, productivity and safety improvements.

We look forward to discussing these matters with you.

A strong leader in the East Dallas Chamber of Commerce over the years, Ms. Belcher served as Vice President, Committee Vice Chair, member of the Board of Directors and Chairman of the Board. She has been involved in many civic and beautification efforts at White Rock Lake and other area parks.

Virginia Belcher received a Certificate of Merit for the 1991-92 Keep America Beautiful, O. P. Schnabel Status Citizen Award.

FAIR PARK PARKING POLICY - A motion by Betty Svoboda, seconded by Carol Brandon to approve the following policy, was carried:

SCOPE OF THE POLICY

This policy is intended by the Dallas Park and Recreation Board to serve as the framework for charging parking fees at Fair Park. This policy is the result of a working committee consisting of Fair Park campus members, Henry Schulson, Mac Sudduth, Plato Karayanis, Harry Robinson and Craig Holcomb.

The Fair Park Executive General Manager will be responsible for all parking lot management in Fair Park. The Manager will work closely with permanent institutions and special event organizers to meet their individual needs.

The Manager will inform all Park entities of the exact dates when paid parking is currently required by contract, such as the SMU football season. Such paid parking will as closely as possible reflect the actual times of the events and not begin unnecessarily early or continue unnecessarily late. The Fair Park campus family will be informed when negotiations begin on future such contract dates and arrangements will be made so as not to impact drop-offs and to minimize impact on regular Park visitors.

(Continued on the following page.)

During the State Fair, parking will continue to be controlled by the legal agreement between the City and the State Fair of Texas, Inc.

During Starplex events, parking will continue to be controlled by the legal agreement between the City and Starplex.

For those events where expected attendance justifies paid parking (over 5000), signage and publicity will be fully utilized to direct the events' attendees to enter the Washington Street gate or the Fitzhugh Street gates. Parking fees will be charged at all gates. Attendants at the Grand Avenue and Martin Luther King, Jr. Blvd. gates will ask visitors if they are attending a specific event. If they are, they will be charged. If visitors identify themselves as attending a permanent attraction, no parking fee will be charged. For those events whose expected attendance is in excess of 20,000, event organizers will reimburse the City for the cost of traffic management and lot security. All campus family members will be notified when event negotiations begin so that possible problems can be identified and solved. Efforts will be made to make the event organizers aware of possible joint activities with permanent institutions. If the organizers insist on paid parking, all visitors identifying themselves as visitors to permanent attractions will be admitted at no charge.

COLUMBIA-ABRAMS OPEN SPACE - When the City built Abrams Road, the small pieces of land left unused as street right-of-way were designated as open space and the Park Board formally accepted this property as dedicated park land on March 26, 1981. In accordance with the Texas Parks and Wildlife Code, park land in amounts of two acres or less in cities of one million or more population can be sold. The City Council must hold a public hearing and make a ruling that the land is no longer functional or usable as a park and the proceeds must be used to acquire new park land. The land would then be conveyed pursuant to an ordinance adopted by the City Council unless within 60 days from the public hearing a petition is presented by no less than 1,500 registered Dallas voters objecting to the sale.

Juliette Fowler Homes has requested that the Park Department sell a small, triangular piece of the property which they propose to use as a new main access to their campus. The area would remain as open space with landscaping and associated improvements. The sale of the property would be based on the appraised value of the property as secured through the Property Management Division of the Public Works and Transportation Department.
