These type of Centers should be in non-residential areas

There should be more than one location because of transportation issues

City should consider mobile units as a pilot

There should be other services offered through partnerships

Concerns of funding services to serve non-citizens (e.g., protests at the Garland Center)

City should adopt an ordinance to address day labor worker concerns

Day Labor Research Update

- In 2015, the City of Dallas Planning and Neighborhood Vitality Department provided a briefing on day labor centers to the Budget, Finance, & Audit Committee. Information included Plano, Garland, Denton, and Austin day labor centers.
- Plano Center was established in 1994 based upon an Ordinance to reduce crime and increase community safety. Serves over 200 workers each day, it is a city-owned location, salaries are negotiated between worker and employer, and no other services are provided.
- Garland Center was established in 2002 in partnership Texas Workforce Commission. It closed in 2020.
- Austin Center was established in 1999. It has temporarily stopped in-person services because of limited space and COVID. They are expected to complete relocation by end of 2022. In partnership with Homeless Solution on the day labor project.

Day Labor Center Ordinance - Example

- As an alternative to a city-sponsored day labor center, at least one municipality (Haltom City, Texas) has adopted an ordinance dictating the location of centers as well as basic operating guidelines.
- The Haltom City ordinance requires a day labor center operator to possess a current and valid temporary common worker employee license issued by the Texas Department of Licensing and Regulations (TDLR).
- Day labor center violations are reported to the TDLR for investigation and enforcement.

Questions and Responses (Potential Risks and Liabilities)

Questions	General Liability Responses
Can the City set the wages ?	It is not recommended that the City set or recommend wages between a private employer and the day laborers it hires, beyond what state and federal law already requires.
Can the City bar problematic employers/ laborers from using the DLC?	Yes. The City can set rules and regulations for the DLC and provide for an enforcement procedure. For example, the City could bar employers from using the DLC who garner 3 or more worker complaints within a 6-month period, etc. The City could set general standards for DLC participants, both employers and workers, such as: <ul style="list-style-type: none">Returning workers to the DLC at the end of the job;Prohibiting employers from charging workers fees for necessary equipment, uniforms, transportation, etc.

Questions and Responses (Potential Risks and Liabilities)

Questions	General Liability Responses
Can the City setup a Mechanism for laborers to avoid cash payments?	It is recommended that the City not be directly involved in the payment process to avoid the City getting pulled into wage disputes; however, the City could mandate, via rule or ordinance, that a participating employer offer a minimum of two methods of payment
Can we provide services at the DLC to promote safety, equity, protection, etc.?	Yes, nothing would prohibit the City from making resources available to DLC workers in terms of information on various social programs or initiatives.
Other Considerations	The City of Plano states various disclaimers, including that the DLC is not an employment agency; that the City of Plano does not set or recommend the wages; that skills are self-reported by workers and that the City of Plano does not guarantee that any worker will be able or willing to do the job and the employers is responsible for interviewing and assessing the worker's skills; and that the employer is responsible for complying with employment laws and the City of Plano does not check documentation of DLC workers

Staff Recommendation

- Develop the framework for a mobile unit as a pilot for a city-sponsored location in partnership with Workforce Solutions of Greater Dallas.
- Consider co-locating with existing Workforce Solutions of Greater Dallas site.
- Consider adoption of Day Labor Center Ordinance.

Memorandum

CITY OF DALLAS

DATE October 7, 2022

TO Honorable Members of the Workforce, Education and Equity Committee

SUBJECT **Emergency Rental Assistance Program Update**

The Emergency Rental Assistance (ERA) program, which includes ERA 1 and ERA 2, is a federally funded program designed to promote housing stability for households that have been impacted due to or during the COVID-19 pandemic. The program is administered by the United States Department of the Treasury and was authorized and funded in two parts.

The City of Dallas received and accepted direct allocations from both ERA 1 and ERA 2 and is currently primarily implementing ERA 2 programming and has partnered with the United Way of Metropolitan Dallas's Dallas Rental Assistance Collaborative (DRAC), a partnership of approximately 12 nonprofit organizations, and Housing Solutions for North Texas, known as Dallas Housing Authority or DHA as subrecipients to administer ERA 2 funds. The City is administering ERA 2 program funds at this time and has expended all ERA 1 funds, including reallocations. The City received approximately \$40M in ERA 1 funds, which has been fully expended, and approximately \$52M in ERA 2 funds, which are nearing full obligation and expenditure. As of June 30, 2022, we had served a combined total of 9,422 clients through the ERA1 and ERA 2 programs, which includes 2,537 through ERA1 and 6,885 through ERA2. Average amount per household for ERA 1 clients was approximately \$5,500, while through ERA 2 thus far, the average amount per household has been approximately \$5,600.

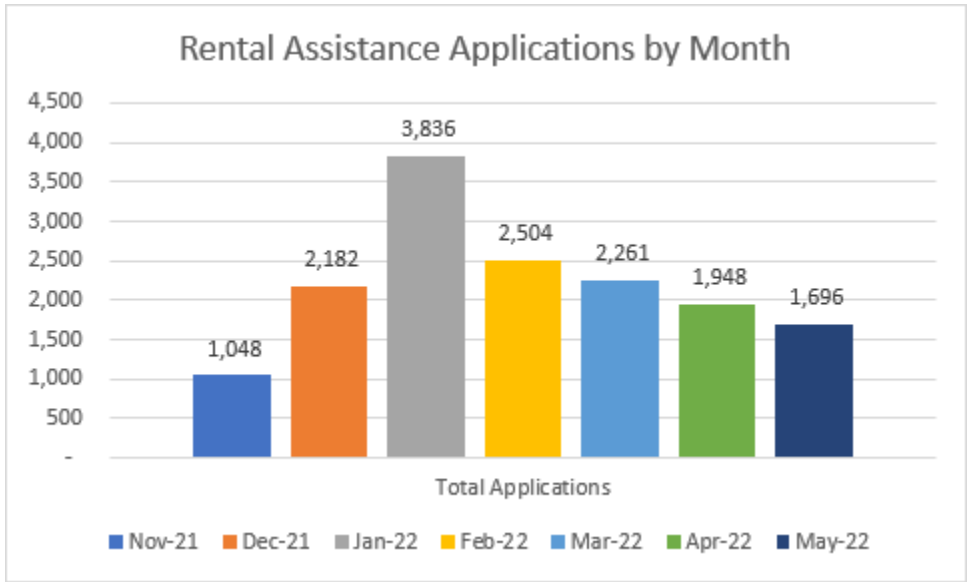

Emergency Rental Assistance Program Prioritization

The ERA program requires the prioritization of assistance for households that earn below 50% of the Area Median Income, \$43,850 for a family of 3, or in which one or more members of the household are unemployed and have been for 90 or more days. Additionally, the City considers potential eviction status when assigning cases for processing to organizations who are able to process cases as expediently as possible.

The Need for Rental Assistance

Since early 2021, the City began accepting rental assistance applications through an online assistance portal. More than 17,000 applications have been submitted through the portal, with 10,000+ of these being submitted during 2022. In May of 2022, the portal was closed to new applications because the number of submissions exceeded what was expected to be served with available funding.

SUBJECT **Emergency Rental Assistance Program Update**

Additionally, in August 2022, Dallas Housing Authority relaunched its rental assistance portal. In order to alleviate the large number of pending applications, DHA agreed to take on and prioritize over 2,100 of the pending applications from the City’s portal. From August to October 2022 DHA has approved and is disbursing rental assistance to over 1,000 Dallas households through ERA2. As of October 4, 2022, all available DHA rent relief funds have been committed. DHA has served households in 70 zip codes across the city of Dallas.

Next Steps

DATE October 7, 2022

SUBJECT **Emergency Rental Assistance Program Update**

The City is currently working to compile, review and validate data from all partners to prepare our quarterly report to the Treasury for the period ending September 30, 2022, which is due later this month. Once we have completed this process, we will be able to report accurate and current data on ERA service delivery through this month. Current projections indicate that the City will report full obligation of funds in the coming weeks.

In order to serve as many applicants as possible, the City is also utilizing other available rental assistance funding to serve these clients, including Homelessness Prevention dollars through the Emergency Solutions Grant and the Client Emergency Assistance Program / Rental Assistance funds through the CARES Community Development Block Grant program.

The City has also taken steps to partner with Dallas County Health and Human Services to serve more Dallas residents. DCHHS staff receive case assignments and process clients who are Dallas residents directly through the City's Kinetech portal. Additionally, the City is working with Denton County and their subrecipient, United Way of Denton County, on duplication prevention to ensure that Dallas residents of Denton County can be processed without risk of duplication.

Finally, the City regularly requests reallocated funds from Treasury each time the opportunity to make such a request becomes available. Thus far, we have received an additional approximately \$900,000 from reallocation requests and hope to continue receiving additional funds and currently have pending requests for ERA 1 and ERA 2 funds.

Memorandum

CITY OF DALLAS

DATE September 23, 2022

TO Honorable Mayor and Members of the City Council

SUBJECT **September 12, 2022 Digital Equity Initiatives Update Follow-Up**

On September 12, 2022, Staff briefed the Workforce, Education, and Equity Committee on the Digital Equity Initiatives Update (Update). The Update focused on the City and its partners' efforts to bridge the digital divide through digital equity initiatives such as the Affordable Connectivity Program, Dallas Public Library Programs and Services, Digital Navigators Program, and Digital Inclusion Week. The following questions were requested as information in a follow-up memorandum:

1. The use of hotspots as an option for clients in the Digital Navigators Program

Digital Navigators will work closely with the clients to determine the connectivity solution appropriate for their household that includes not only what is available in the area but aligned to the preferences of the household. Digital Navigators will be asked to maintain detailed information related to the connectivity solutions offered and the reasoning behind the client's selection. This data will assist staff in program evaluation of outcomes and impact and potentially any future program modifications.

2. Digital Navigators and a Train the Trainer Program

Staff will develop a second component to the Digital Navigators solicitation for a 'Train the Trainer' Program to address the organizational capacity of organizations that may not have dedicated 'digital equity' programming but have established relationships and connections with communities we intend to serve. Staff will provide an update on the development of this program in November in conjunction with an update to the Digital Navigator Request for Competitive Sealed Proposals (RFCSP).

3. Mapping overlay of areas lacking internet and internet service availability

The Federal Communications Commission (FCC) and Texas Broadband Development Office (BDO) are both working to collect data from internet service providers (ISP) to develop and update their current broadband maps with more detailed and precise information on the availability of fixed and mobile broadband services. Both agencies are currently collecting ISP data, then will open the data validation and verification period to governments at the state and local level in Spring 2023. Staff will provide updates once the maps and data become available.

4. Type of Connection in 'Percent of Households with No Internet Access' Map

As per the Census, the 'Percent of Households with No Internet Access' data is:
"Estimated percent of households with no internet access, between 2016-2020. Internet access can include a subscription for dial-up, cellular, cable, fiber optic, DSL, satellite, or other service, or internet access without a subscription."

DATE September 23, 2022
SUBJECT **September 12, 2022 Digital Equity Initiatives Update Follow-Up**

The data **may** capture the cellular internet connections potentially used by households under the 'other service' category.

5. Middle Mile terminology and RFCSP Timeline

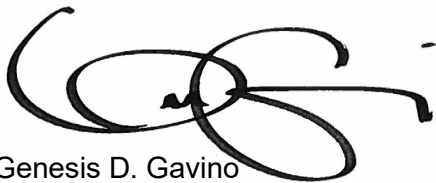

In simple terms, the 'Middle Mile' is defined as the mid-section of an Internet infrastructure that carries large amounts of data at high speeds over mid to long distances.

The definition in the Notice of Funding Opportunity (NOFO) for the US Government's Middle Mile Grant Program is:

Middle Mile Infrastructure.—The term "middle mile infrastructure"— (A) means any broadband infrastructure that does not connect directly to an end-user location, including an anchor institution; and (B) includes— (i) leased dark fiber, interoffice transport, backhaul, carrier-neutral internet exchange facilities, carrier-neutral submarine cable landing stations, undersea cables, transport connectivity to data centers, special access transport, and other similar services; and (ii) wired or private wireless broadband infrastructure, including microwave capacity, radio tower access, and other services or infrastructure for a private wireless broadband network, such as towers, fiber, and microwave links.

The current timeline for the release of the Request for Competitive Sealed Proposal (RFCSP) is October 15, 2022. Staff is currently reviewing a draft developed by CTC Technology and Energy alongside the City Attorney's Office and Office of Procurement Services for the next two weeks. The expectation is that the RFCSP will be on the street for no less than 60 calendar days and the City will hold at least 2 industry sessions for potential proposers to walk attendees through the RFCSP in a public forum and invite questions.
