Recommendations

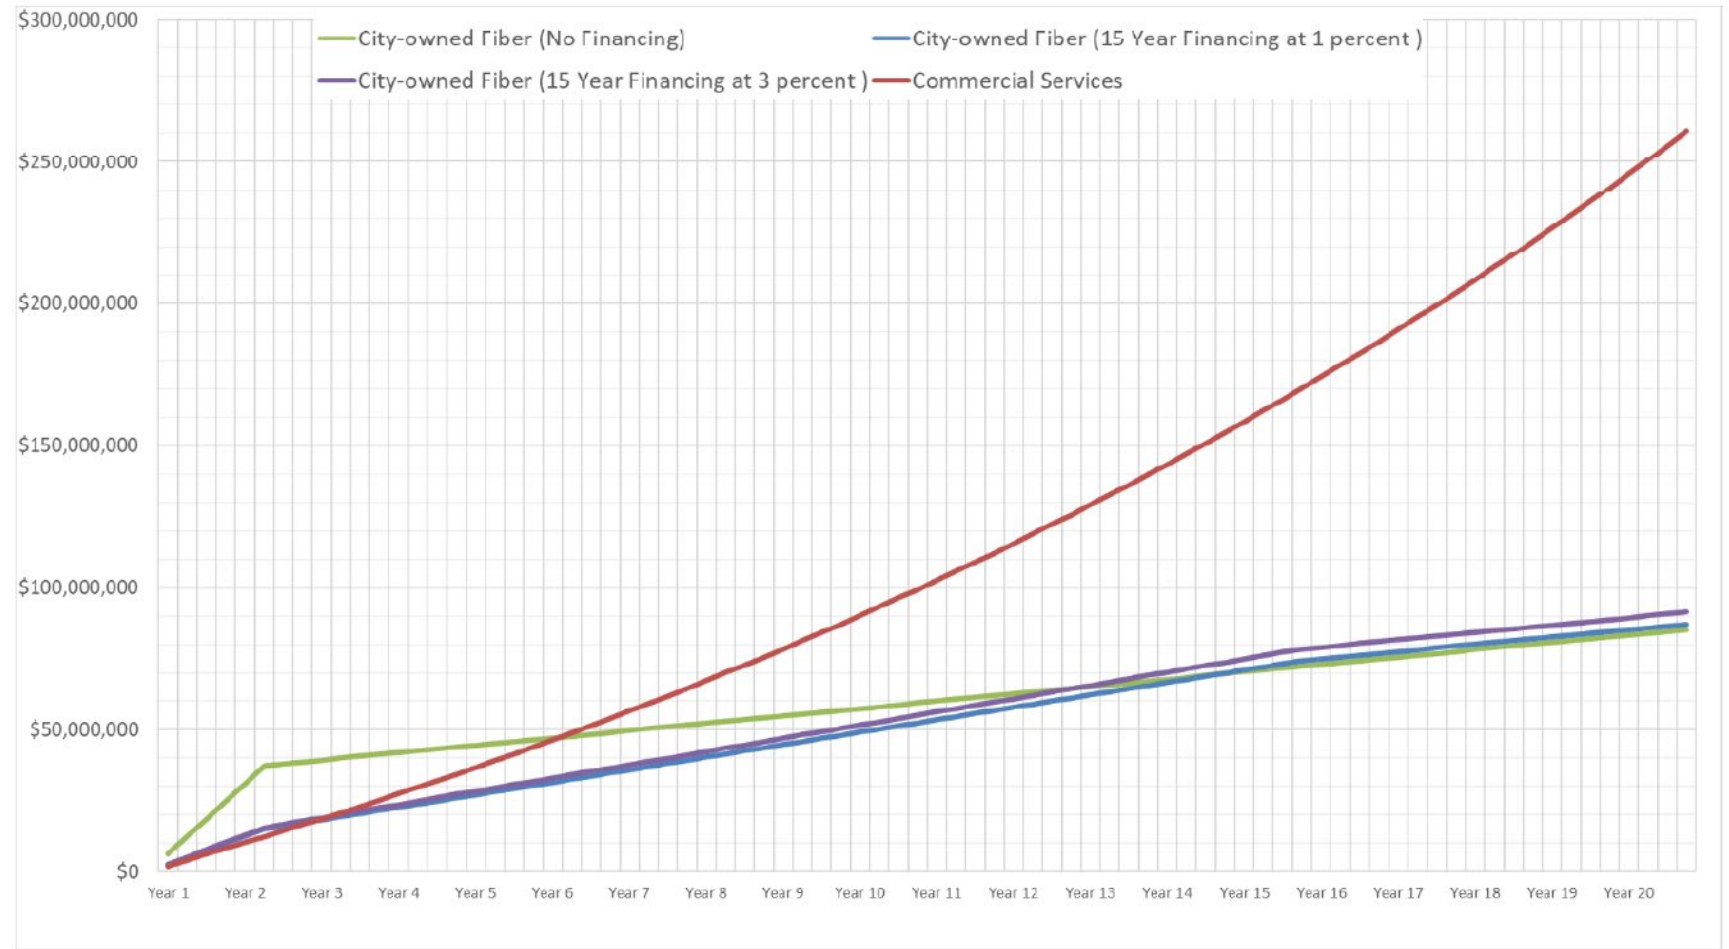

- In the Broadband and Digital Equity Strategic Plan (August 2021), CTC Technology & Energy recommended the City of Dallas should invest in Fiber to address issues of the Digital Divide.
- CTC recommended that the City should establish a fiber backbone that connects City buildings and is routed strategically to reach areas with low broadband investment.
- A City-controlled fiber infrastructure will enable cost-effective, best-in-class City networking which enables extended digital equity services to community anchor institutions and lower-income communities.

Recommendations

- Continuing to lease commercial lit services will cost the City of Dallas more than \$250 million over 20 years if current needs and costs remain relatively constant.
- Investment in a Digital Equity Infrastructure can effectively reduce those costs to approximately \$100 million over 20 years.

Funding Sources

- American Rescue Plan Act (ARPA) of 2021
 - City committed \$43 million for programs for bridging the Digital Divide.
 - \$3 million dedicated to providing free City wi-fi at PKR locations.
 - Funding for laptops and hotspots to be checked out from libraries.
 - Funding for developing Digital Equity Infrastructure.
- Infrastructure Investment and Jobs Act (IIJA) of 2021
 - The Enabling Middle Mile Broadband Program provides \$1 billion in funding for high-speed internet to unserved and underserved communities.
 - Timeline for the program:
 - ✓ **May 13, 2022** – Notice of Funding Opportunity (NOFO) released.
 - ✓ **September 30, 2022** – Proposal submission deadline.
 - ✓ **January 2023** – Awards announced.
 - ✓ **March 1, 2023** – Award start date no earlier than.

Next Steps

- Timeline:

- **November 2023 – January 2023:** Public outreach to validate the FCC National Broadband Map and submit challenge as appropriate by January 13, 2023.

Pedestrian Trail Easement Request by the Dallas Fort Worth International Airport
[Paul Tomme, Legal Counsel, Dallas Fort Worth International Airport]

November 14, 2022

To the Honorable Members of the Transportation and Infrastructure Committee of the Dallas City Council:

The Dallas Fort Worth International Airport Board is requesting that the Owner Cities of Dallas and Fort Worth grant the City of Fort Worth an easement on DFW property for pedestrian and non-motorized vehicles.

The easement is to accommodate a concrete pathway from the south end of the American Airlines Headquarters campus at Trinity Boulevard to the southern boundary of the Airport, along a tributary that parallels State Highway 360. The pathway will connect the American Airlines Headquarters to the Centreport TRE station and the River Legacy Trail.

The easement is being requested by the Texas Department of Transportation, the City of Fort Worth, and American Airlines. The easement has no potential for commercial development and will have no cost to DFW to construct or maintain.

This item was briefed and approved by the Dallas Fort Worth International Airport Board at the May 12, 2022, meeting. The DFW Airport Board of Directors recommends that the City Councils of Dallas and Fort Worth approve this item.

Should you have any questions on this item, please contact Paul Tomme at 972-973-5488.

Shared Dockless Vehicle Program: Operator Permit Application Scoring Results
[Ghassan Khankarli, Ph.D., P.E., Director, Department of Transportation]

Memorandum

CITY OF DALLAS

DATE December 2, 2022

TO Honorable Chair and Members of the Transportation & Infrastructure Committee

SUBJECT **Shared Dockless Vehicle Program: Operator Permit Application Scoring Results**

The purpose of this memorandum is to notify the members of the Transportation & Infrastructure Committee, Mayor and City Council, shared dockless vehicle operators, and the public of the results of the Call for Applications for 2022-2023 Shared Dockless Vehicle Operating Authority Permits.

The Department of Transportation received applications from five operators: Bird, GBike, Lime, Spin, and Superpedestrian. A scoring committee was convened to review the applications, consisting of six staff from three departments, including the Department of Transportation, Park and Recreation Department, and Planning and Urban Design Department. Each application was scored using the criteria previously reviewed by the Micromobility Working Group. Operators were also required to participate in an in-person demonstration to show how well their devices and technology could comply with certain requirements in the Program Rules and the Code, including but not limited to:

- Slowing to 10 mph before a device enters a geofenced Slow-Ride Zone
- Safely stopping when a device enters a geofenced No-Ride Zone
- Providing a warning to riders when they approach these zones

These demonstrations were held on November 15-16, 2022 on the City Hall Plaza.

The applications were scored out of 100 total points possible. The scoring results are summarized below, with the operators ranked from highest scoring to lowest scoring. A more detailed scoring table is provided in Attachment 1.

- | | |
|--------------------|-----------|
| 1. Superpedestrian | 86 points |
| 2. Bird | 85 points |
| 2. Lime | 85 points |
| 4. Spin | 79 points |
| 5. GBike | 51 points |

In accordance with the Program Rules that took effect on August 1, 2022, the City may issue up to three active operating authority permits, which are valid for one year. The Department of Transportation intends to issue permits to the three top-scoring operators for the 2022-2023 permit cycle: Superpedestrian, Bird, and Lime.

DATE December 2, 2022
SUBJECT **Shared Dockless Vehicle Program: Operator Permit Application Scoring Results**

Next Steps

There are several action items that need to be completed before the permits can be formally issued and services launched. Action items to be completed include executing the contract with the selected Data Vendor, working with the Data Vendor to configure their interface to suit the City of Dallas needs, and connecting the operators' data feeds to the Data Vendor's platform. The Data Vendor will allow City staff to monitor operator compliance in real-time. Depending on the amount of time it takes to complete the above steps, staff anticipates that services will launch before the new year.

As more information becomes available, it will be posted to the Shared Dockless Vehicle Program website: <https://dallascityhall.com/departments/transportation/Pages/dockless-vehicle-program.aspx>

If you have any questions or concerns, please contact Ghassan "Gus" Khankarli, Ph.D. P.E., PMP, CLTD, at ghassan.khankarli@dallas.gov.
