- Investigative Facial Recognition Technology
- Program Objectives
- Process and Overcoming Concerns
- Next Steps

Investigative Facial Recognition Technology Overview

- Investigative facial recognition technology is a means of ascertaining and confirming an individual's identity
- Utilizes open-source information as comparison images
- Employs artificial intelligence to identify/compare millions of images
- Used by police agencies across the country

Investigative Facial Recognition Technology Overview

US Agencies with Investigative Facial Recognition Technology

Program Objectives

- Provide investigative leads in violent offenses, imminent threats to public safety, and to assist in identification of deceased/incapacitated individuals
- Ensure that use of investigative facial recognition technology complies with all applicable and data security laws and that use holds residents' privacy rights and civil liberties in the highest regard
- Require high standards of training and peer review for investigative facial recognition technology usage
- Ensure transparent and thorough oversight of investigative facial recognition technology

Process

Overcoming Concerns

Concerns about inconsistencies in identification:

- Investigative facial recognition technology will not be used as a positive identification or as probable cause for arrest without additional corroboration/investigation
- Extensive 32-hour training of all analysts, with components around implicit bias and how to avoid misidentification.
- Peer review of all results is required.

Overcoming Concerns

Privacy concerns and data collection:

- Data collection is governed by 28 CFR Part 23 and program manager will oversee compliance

Overcoming Concerns

Implications related to free speech, freedom of assembly, freedom of religion:

- General order forbids use of investigative facial recognition technology for First Amendment activities; criminal predicate or public safety threat is required for all use
- Investigative facial recognition technology will not be leveraged to identify individuals on live feeds or during live-streamed events

Overcoming Concerns

Unintended consequences, including concerns that there will be an overreliance on video evidence:

- The general order makes clear that investigative facial recognition technology is only one element of investigative support that must be used in conjunction with additional corroboration and investigation

Overcoming Concerns

To ensure clear data on clearance rates and investigative facial recognition technology efficacy:

- General orders require that all instances of Investigative Facial Recognition Technology use be logged and mandate frequent reporting of system usage, allowing data collection that could facilitate further research.

- Clearview AI is the current industry leader:
 - Achieved top ranking for accuracy in [rigorous National Institute of Standards and Technology testing](#)
 - Searches are quick and compare probe images with millions of scraped open-source images
 - Retains robust records of all searches with the application

Next Steps

- Implement DPD General Order related to investigative facial recognition technology
- Implementation of investigative facial recognition technology program management, oversight and reporting plan
- Training completion for all investigative facial recognition technology analysts

Honorable Members of the Public Safety Committee

TO Cara Mendelsohn (Chair), Kathy Stewart (Vice Chair), Tennell Atkins, Jesse Moreno,

SUBJECT **Dallas Fire-Rescue's Public Safety Dashboard for April 2024**

Dallas Fire-Rescue (DFR) had 22,850 dispatched incidents for the month of April, slightly up from 22,536 in March. As you are aware, DFR has a stated goal of 90% achievement for the metrics of EMS response within 9 minutes and Structure Fire Response within 5:20. DFR exceeded the goal of Structure Fire Response in April with a performance of 94%, while failing to meet the goal of EMS response with a performance of 85%. We will continue to analyze data and adjust resources and strategies as necessary to achieve our target goals.

We had only 1 significant fire for the month of April, equal to the number we had in March. Inspection activity decreased from March (4,878 from 6,856) but maintained a steady pace for our annual goals. Our rescue unit hours of utilization (UHU) numbers rose slightly (up to 35.0% from 34.1%) for Frontline units.

We currently have 90 recruits in various stages of Training. These recruits will be assigned to the field in August and October of this year.

For your quick reference, you can access DFR's Dashboard using the following link:

We welcome feedback and suggestions for improvement. Please continue to explore the dashboard and let us know if you have any questions or would like to see any changes/additions. Feel free to contact Executive Assistant Chief Justin Ball at justin.ball@dallasfire.gov.

SUBJECT **Municipal Court Review of Non-Adjudicated Cases Update**

During the last Public Safety meeting, you were briefed on the proposed new criteria for processing non-adjudicated cases. We provided an appendix of cases that met the criteria. The Public Safety Committee requested that the list be reviewed and updated.

Attached is the updated list of cases and a list of deleted cases from the original list.

Please note, offense codes that are no longer within the court's jurisdiction have been removed from the list as well as all excluded cases and civil violations. Furthermore, all eligible cases will be fully reviewed by the court on a case-by-case basis, and a final decision of adjudication will be made based on the facts and evidence surrounding each case.

If you have any questions or concerns contact, Greg Nelson, Municipal Court Director at gregory.nelson@dallas.gov.

SUBJECT **Dallas Fire-Rescue Facility Construction Update**

Please accept this memorandum as an update to the ongoing construction projects involving fire stations through a collaboration between Dallas Fire-Rescue (DFR) and the Building Services Department (BSD), the Office of Bond and Construction Management (BCM), Office of Economic Development (ECO), and construction contractors:

1. Fire Station 11 (3828 Cedar Springs Rd) - Restoration project is underway and progressing. Work has been completed on the showers, tile install in kitchen and hallway, and new beams in attic. Pressure washing and painting of eave elements are still underway and should be completed in the next week, as will the additional tile replacements. Lead testing results from paint samples are expected soon. HVAC work should be completed this week. Electrical panel replacements are still in process; supply chain issues have caused delays and a completion date will be provided once these are resolved.
2. Fire Station 56 (7040 Belt Line Rd) – Significant plumbing repairs in the kitchen and bathrooms were completed on May 3rd. Roof leaks are still being evaluated for cause and repair strategy. The return air vent grille in kitchen is currently being acquired by a vendor.

SUBJECT **Dallas Fire-Rescue Fleet Maintenance Update**

Dallas Fire-Rescue (DFR), to provide excellent service delivery to the residents of the City of Dallas, strives to maintain adequate resources to allow for efficient and effective emergency response. Please accept this memorandum as an update to the status of the DFR emergency fleet.

The status of emergency apparatus, as of April 30, 2024, is as follows:

UNIT	OPTIMAL	CURRENT	SQUAD***	RESERVE	REPAIR*	ON ORDER**
ENGINE	58	58	0	3	18	4
TRUCK	23	23	0	2	12	1
RESCUE	47	47	0	3	20	25

**Repairs are apparatus currently out of service and being repaired*
***Orders are apparatus expected to be delivered by end of CY23*
****Squads are only in service when Engines or Trucks are out of service*

As requested, the following table illustrates the emergency response apparatus removed from service due to catastrophic loss (i.e., accidents) since FY21:

UNIT	FY21	FY22	FY23	FY24	TOTAL
ENGINE	2	1	1	0	4
TRUCK	1	0	0	0	1
RESCUE	2	0	1	0	3
BLOCKER	0	0	1	0	1

Reserve unit repairs in each of our three major categories are ongoing and DFR anticipates its reserve fleet to improve due to new fleet additions and completion of needed repairs and major preventive maintenance. To address potential apparatus shortages and minimize negative effects on departmental operations, DFR has developed and deployed various strategies, including the utilization of an emergency fleet rental agreement, the Squad Program, and the Blocker Program. In anticipation of upcoming warmer temperatures, DFR will undertake a fleetwide air conditioning systems check. The

department will also be taking delivery of 6 new Wildland vehicles by June. Coupled with a comprehensive preventive maintenance check of DFR's brush trucks and other wildland resources, the department is leaning forward to address the threat of urban and wildland interface fires.

DFR's fleet maintenance program has evolved to include a more aggressive and comprehensive preventative maintenance (PM) plan for all apparatus. To address staffing concerns, DFR has strengthened its mechanic technician recruitment and retention through expanded recruitment sources and partnerships, improved salary scales, improved training, and a robust succession plan. Additionally, DFR has partnered with the Performance, Strategy, and Innovation Department to implement 5 key initiatives outlined from an extensive visioning exercise. The first initiative will focus on retention of mechanic technicians within the DFR Fleet Maintenance Shop.

DFR anticipates that through the above plans and programs, any negative operational effects from fleet shortages will be avoided. It is our expectation that the resulting improved operational, training, and staffing plans will aid in further protecting the status of our emergency fleet for years to come.

SUBJECT **First Responder Street Topper Update**

Please accept this memorandum as an update to the First Responder Memorial Street Topper Project, intended to honor members of the Dallas Police Department (DPD) and Dallas Fire-Rescue (DFR) whom have been lost in the line of duty.

DPD and DFR have partnered with the City Attorney's Office to finalize the wording of the new ordinance for First Responder Street Toppers. The ordinance is scheduled to be included in the June agenda for the Public Safety Committee before going to full Council in August.

The first phase of First Responder Street Topper installations is set to begin this fall, with an Opening Ceremony tentatively scheduled for Friday, September 6th, 2024. This ceremony will serve to publicly signal the beginning of the First Responder Street Topper Program and will include the installation of toppers for members from both DPD and DFR in designated sites in the Central Business District. The remainder of the first phase of toppers will be installed throughout the fall. Subsequent phases will follow in 2025.

SUBJECT **Violence Intervention Program Update**

The purpose of this memorandum is to provide an history and current overview of Violence Intervention programming.

Violence Intervention programming was identified as an area for investment under the [Mayor's Task Force on Safe Communities](#) and the [City Manager's R.E.A.L. Change plan](#). The FY2021 budget allocated \$800,000 towards violence intervention programming and has since been expanded. For FY2024, the planned allocation is \$1,200,000. This funding increase is due to securing a grant from the National League of Cities and IPS' plan to expand violence intervention services. Full details of all briefings and contracts authorized by the City Council are provided and linked in the table below.

Current Programming:

As referenced above, the City has [expanded violence intervention funding and programming](#) into four initiatives:

- Initiative #1: Direct services to persons affected by gun violence
- Initiative #2: Summer enrichment programming
- Initiative #3: Parent investment program
- Initiative #4: Focused deterrence support

Currently, the Office of Integrated Public Safety Solutions administers two contracts that support these initiatives. First, [Youth Guidance Inc.](#), is contracted to provide summer enrichment programming to youth following the "Becoming a Man & Working on Womanhood (BAM/WOW)" curriculum. The goals of this program are to:

- Serve up to 600 students 5 days per week during summer break at community centers.
- Provide field trips and experiences to students.
- Offer social and emotional skill-building on topics such as Integrity, Self-determination, Positive Anger Expression, Accountability, and Goal Setting.

In addition, IPS has recently entered a contract with [Urban Specialists Inc.](#) for the following services:

- Increase community engagement by developing and supporting credible community members.
- Strengthen the relationship between law enforcement and the community.
- Deploy outreach workers to provide social services and opportunities to change community norms and behaviors.
- Change behavioral norms that support violence in target communities through planning and participating in community activities and public education efforts.
- Delivery of an activity-based curriculum allowing parents to learn and practice behavior management techniques at home.

National League of Cities Grant Funds:

As part of the Municipalities Reimagining Community Safety program, Dallas has also [accepted a \\$700,000 grant](#) aimed at supporting violence intervention programming. The table below outlines the planned expenditures for this grant:

Community Engagement Expenses	\$55,000.00
Data Measurement	\$20,000.00
Microgrants	\$100,000.00
Justice Involved Youth Re-Engagement	\$155,000.00
Program Expansion Expenses	\$202,582.00
Staffing for Program Oversight	\$159,472.00
Travel Expenses	\$8,000.00

Planned Programming:

On March 7, 2024, another Request for Proposals (RFP) to further expand violence intervention programming was issued for [Community Violence Intervention \(BMZ24-00023767\)](#), inviting qualified proponents to fulfill the following services:

- Barber Shop Talk Program
- Weekly Group Sessions - Mental Health: Addressing Trauma Surrounding Violent Gun Crimes
- Youth Activate Space Program - Increasing Utilization of Parks and Centers
- Community Violence Intervention (CVI) Response Team (Community Mobile)

This RFP closed to new submissions on April 19, 2024. Received proposals will undergo evaluation by a multi-departmental effort, with recommendations for award presented to the Public Safety Committee before City Council consideration.

Performance Data:

The Office of Integrated Public Safety Solutions presents monthly performance data on Violence Intervention programming to the Public Safety Committee as part of the "[Public Safety Dashboards](#)" agenda item. Dashboards including program output and outcomes dating back to February 2021 are available.

Past Council Action & Briefings:

<u>Date</u>	<u>Action</u>	<u>Body</u>
February 5, 2021	Violence Interrupter Program Update	Public Safety Committee
April 12, 2021	Violence Interruption Program contract recommendations	Public Safety Committee
April 28, 2021	Contract authorization with YAP, Inc. (two-year contract totaling \$1,600,000)	City Council
November 8, 2021	Violence Intervention Program Update	Public Safety Committee

March 7, 2024	Community Violence Intervention RFP #3 (Closed on 4/19/2024)	Office of Procurement

In summary, the City’s funding to support a comprehensive community violence intervention program has grown from \$800,000 in FY21 to \$1.2 million in FY24 through expanded services and leveraging of grant funds. These funds are disbursed to community organizations through competitive procurement and approval by the City Council. IPS will continue in tracking outcome metrics for contracted services and providing monthly reports to the Public Safety Committee.

SUBJECT **May 22, 2024 City Council Draft Agenda Item 24-1492 Service Contract for Maintenance, Support, and Licenses for an Audio and Video Recording System for the Police Department**

The following agenda item is scheduled to go before the City Council on May 22, 2024.

DRAFT AGENDA ITEM 24-1492

Authorize a three-year service contract for maintenance, support, and licenses for an audio and video recording system for the Dallas Police Department - CALLYO 2009 CORP, sole source - Not to exceed \$148,584.60 - Financing: Confiscated Monies - State Fund

BACKGROUND

This action does not encumber funds; the purpose of a service contract is to establish firm pricing for services, for a specific term, which are ordered on an as needed basis.

This service contract will provide for maintenance, support, and licenses for an audio and video recording system for the Department of Information and Technology Services.

The Dallas Police Department (DPD) uses the system to record telephone conversations and video. Without this service, DPD will lose an invaluable tool used in multiple operational divisions. This service allows officers to gather evidentiary material to help build cases for prosecution while maintaining covert capacity.

As part of the solicitation process and in an effort to increase competition, the Office of Procurement Services used its procurement system to send out email notifications to vendors registered under relevant commodity codes. To further increase competition, the Office of Procurement Services uses historical solicitation information, the Internet, and vendor contact information obtained from user departments to contact additional vendors.
